QUINTE DISTRICT FAIR

Farmers' Day the Crowning Success of the Exhibition.

AN IMMENSE MULTITUDE CROWD THE GROUNDS.

The Fair Declared to have Been a Great Success.

On Thursday afternoon a great multitude thronged exhibition park. It was far the largest attendance of the week and the receipts were proportionately heavy. The live stock was visited by the majority of people, but the attraction was the horse races. The grand stand was packed and the fence which lined the ring was loaded with men, whilst their wives and daughters stood at their back, peeked under their feet or watched the jostling crowd about them. A better collection of horse flesh has never been seen in the city than was to be seen on the track at this year's exhibition. About as good a driver as there was on the ring was Mrs. H. Ashley, with her little bay pony. She is an expert with the reins—an easy and graceful driver.

FARMERS' RACE.

The farmers' race for pair of horses (mares or geldings) the property of the exhibitor, solely engaged in farming, and to be driven by farmers or sons of farmers engaged in farming. Twice around the ring. Best two in three. Entrance fee, $3. Not less than three to compete. First, $25; second, $10; third, $5. There were four starters, viz., J. P. Parasol, Geo. A. Ketcheson, H. Gilbert, and J. H. Ketcheson. It was an interesting contest particularly between Geo. A. Ketcheson and H. Gilbert for second place. There were but two heats. Parasol led easily in both. He had a magnificent team. In the second heat Geo. Ketcheson was a good second until they entered the third quarter of the second lap, when Gilbert pushed to the front on a spurt, but in the home stretch Ketcheson took his former place and won by a good length. The prizes were awarded—P. J. Parasol 1st, Geo. A. Ketcheson 2nd, H. Gilbert 3rd.

RUNNING RACE.

The most exciting of the Thursday afternoon sports was the running race with four starters, open to all farmers engaged as such. Twice around the ring. Best two in three. Four to enter. Three to start. Entrance $3. First, $15; second, $10; third, $5.

The competitors were R. J. Garbutt, W. Tripp, W. A. Chapman and M. McMullen. Mr. M. Williams, of Cobourg, was starter and got them off in fine style. The first heat was finished with Chapman 1st, Tripp 2nd, McMullen 3rd and Garbutt 4th. Chapman won 1st place and McMullen held 2nd until on the third quarter of the last lap when Tripp's horse, ridden by a boy who understood how to handle a horse, pushed to the front and took 2nd place. The second and third money was divided between Tripp and McMullen. Garbutt did not enter in the second heat. Messrs. H. Corby, Dr. Rockwell and John Johnston were judges.

BICYCLE RACE.

Through the liberality of Mr. Ritchie and the directors of the association a bicycle race not on the programme was given. Mr. [redacted]

Gilmour's fire brigade band were on the grounds during the day. The receipts up to Thursday night were about $2,000.

The Quinte District Fair is over. It was a great success and everybody is pleased. The attendance on Friday was good, drawn mainly by the races. Exhibits were not disturbed in the main building until after four o'clock, but the live stock began to leave shortly after the parade of prize animals in the ring, which took place at one o'clock.

FRIDAY'S RACES.

As stated, the special attraction on Friday was the races, and they drew a large crowd. Those who attended were amply repaid for their trouble. The contests in every class were close, the result not being certain until the horses were on the home stretch. First there was the stallions' race, best three in five, three times around the ring, one mile. The entries were R. R. Ross' Volunteer Clay, Wm. Coe's Driftwood and Wm. Hatch's Stanton Jr. They started in the order named, Volunteer Clay leading and covering the distance in 2:55¼. Driftwood was 2nd, and Stanton jr., 3rd. The last two horses broke repeatedly, while Clay got down to business at the first and kept there to the finish. He is a fine black and his owner is justly proud of him. He did not turn a hair in the whole race. Stanton has an easy action and showed great speed, when he got down to work, but the sharp curves of the third mile track bothered him, and he invariably broke. Driftwood experienced the same difficulty. At different times through the second and third heats Stanton closed the gaps between himself and the leading horse, but a break would put him back. The second heat was in 2:53¾ and the third in 2:50¾. Stanton was a good second in the last two heats. John McLaren drove Driftwood in the third heat. Messrs S. A. Spangenburg and J. K. McCargar were time keepers. Volunteer Clay is of a distinguished breed, being sired by Old Harry Clay out of a mare by Volunteer, he by Rysdyk's Hambletonian.

RUNNING RACE.

There were four entries. They drew places as follows: R. Fenwick's Idyl Wild, W. A. Chapman's Little Jack, J. H. O'Neil's mare, Jas. Boyd's Bessie. After a few attempts to score they got away all in a bunch. It was a fine contest. Boyd's Bessie pushed to the front and won 1st heat. On the third quarter and down the home stretch Chapman's Little Jack and O'Neil's mare had a sharp brush for second place, the mare showing great speed, but was too headstrong for her rider and took the outside of the track on the turn. Little Jack won by a short lead.

It was found after the heat that Bessie had sprained the cord of a fore leg and was withdrawn. Idyl Wild, is a pretty black of fine action but was too heavily mounted. She was also withdrawn.

The second heat was between O'Neil's mare and Little Jack. O'Neil's black had the lead at the first, but in going down the west side Little Jack pushed to the front. The black spurted and for a time the pair ran neck and neck. The crowd on the grand stand rose to their feet to see them turn on the home stretch. The black was ugly and instead of turning, left the track and ran under some trees in the south east corner. The rider was knocked off but was soon in the saddle and on the track. Chapman's Little Jack was awarded first money and O'Neil's mare 2nd.

BUTCHERS' RACE.

This was an amusing and interesting contest. There were four entries, John Snell, Wm. Clarke, F. P. Sine, and Geo. Gibson. A kick was made against Sine entering the race, on the ground that he was a baker at Foxboro, and not a butcher. Sine affirmed that he had recently bought out Westover, the Foxboro butcher, and was therefore eligible for the race. P. R. Daly confirmed Sine's statement, and the judges allowed him to race, under protest. Snell's horse drew the pole, with Sine 2nd and Gibson 3rd. Clarke did not start. Sine took the lead, and handled his horse well. Gibson's grey showed more speed than its appearance gave promise of, but was eternally breaking. Snell's was the finest looking animal, but was as bad at breaking as the grey, but with less speed when down to good work. It appeared at times that the grey would overhaul the Foxboro animal, but as the horses would get up together the grey would break and fall behind. Time, 3:26.

In the second heat the grey got the lead at the start, but on the second lap Sine pushed to the fore and won the race. Time 3:27½.

When the races was closed the fair was over. The main building was in great disorder, the greater part of the exhibits having been removed. When darkness set in the place wore a deserted look. This morning a few who had heavy goods to handle were on the grounds, but by noon there was but little left to speak of the events of the past four days.

Much credit is due to the enterprising merchants who exhibited this year, they added materially to the success of the fair. The number in this class should be largely increased next year.

The officers did everything in their power consistent with justice to give satisfaction and gave no room for faultfinding. They were courteous and attentive to all enquiries or compaints. That the fair has been a success is conceded on all sides.

NOT A BOOK AGENT.

Mr. Waters, Druggist, is not a book agent, but has the agency in Belleville for Johnson's Tonic Bitters, which he can heartily recommend for any complaint to which a tonic medicine is applicable. This valuable medicine has been used with much astonishing good results in cases of general debility, weakness, irregularities peculiar to females, extreme paleness, impoverishment of the blood, stomach and liver troubles, loss of appetite. and for that general worn out feelings that nearly evey one is troubled with at some part of the year. Don't forget the name Johnson's Tonic Bitters 50c. and $1 per bottle at Waters' drug store.

Revoking the Scott Act.

NO ACTION TO BE TAKEN UNTIL 15 DAYS BEFORE THE THREE YEARS EXPIRE.

"Whereas it is desireable, as a matter of administration, that a uniform rule should be adopted in dealing with actions praying for the revocation of orders-in-council bringing the Canada Temperance Act into force, notwithstanding that three years have not elapsed from the date of the coming into force of the act under said order-in-council. His Excellency, on the recommendation of the Minister of Justice, and by and with the advice of the Queen's Privy Council for Canada, has been pleased to order, and it is hereby ordered, that no election for the revocation of an order-in-council under the Canada Temperance Act, being chapter 106 of the Revised Statutes of Canada, shall be authorized to take place earlier than fifteen days before the expiration of three years from the date of the coming into force thereof under said order-in-council.

Infants Starved to Death.

HORRIBLE DISCOVERY OF AN ALLEGED BABY FARM IN ROCHESTER.

ROCHESTER, Sept. 25.—Last evening the funeral notice of a child named Hawkins was sent to a newspaper office here. A reporter recognized the locality where the child died as an alleged baby farm, and notified one of the city coroners. At midnight the coroner and police visited the place and found four children, two of whom were alive and the other two dead. The latter were merely skeletons, and had every appearance of being starved. The other infants were just alive, and it is hardly expected that they will live. The woman who keeps the farm was arrested, and another woman named Hawkins, mother of one of the children, was held as a witness.

Suggested visit of Royalty.

LONDON, Eng, Sept. 24.—Some journals commenting on the reported intention of the Queen to visit Canada urge that a Royal visit to the Dominion would be of great benefit to the throne and empire. A visit to Canada however, would necessitate visits to other colonies and this would be impossible for the Queen. It is suggested however, that the Prince of Wales might with great advantage to the States endeavor to find an opportunity to visit Canada and the other Colonies. The prince has long taken a keen interest in the progress of the Dominion. He has, at his own request been supplied with the best available maps of the Dominion, photos of Canadian scenery, and, if state exigencies permitted, would gladly undertake a Canadian tour.

CALIFORNIA CAPITALISTS ARRANGING FOR A FAST TRAIN TO THE EAST.

SAN FRANCISCO, Sept. 25.—The statement is made here that Jno. D. Spreckles, president of the Oceanic Steamship Company, had made an agreement with the Atchison, Topeka and Santa Fe Railway to provide for a through express from San Diego to New York in four days. The train is to carry passengers and mail through with but few stops, and the Oceanic Company's steamer, if pushed, will cross the Pacific from San Diego to Sidney, stopping at Auckland, in seventeen or eighteen days. The total time from Sidney to Liverpool will be reduced to twenty-eight days.

Robery and Elopement.

DOVER, N. H., Sept. 25—P. B. Crosby, treasurer of the Laster's Protective Union Fair, a married man, has skipped to Canada with the fair receipts, amounting to $5,000 and is accompanied by Mrs. Emma Sawyer Lord, a young married woman of 19. Crosby left Dover on Saturday evening in company with Mrs Lord, reaching Concord in time to catch the 9.30 p. m. express for Montreal. The fair managers had such faith in Crosby's honour that they did not require him to give bonds. He leaves an aged mother, a broken-hearted wife and two children to suffer for his evil-doing. He left them pennyless, as he only handed his wife a $2 bill before going.

The Intelligencer.

BELLEVILLE, THURSDAY, SEPT. 29.

THE LEAGUE AND THE LAW.

Owing to the proclamation of the National League in a portion of Ireland, the leaders of that organization and the professional agitators who are at their beck and call, have been brought face to face with the law. At the time of writing nothing has been made known as to their plans for the future, but that they will make as hard a fight as they can, goes without saying.

There are those who will condemn the act of the Government as a tyrannous one, but we believe that it will relieve the law-abiding people of the districts affected from a tyranny more odious and more cruel than that of which any Government in any country has ever been guilty. For example, at the inquiry into the circumstances attendant upon the killing of Constable Whelan recently, in defending the house of a farmer named Sexton from an attack by Moonlighters, the widow Sexton, mother of the farmer whose house was attacked by the prisoners, stated that after the ban of the league had been placed upon them they could not get food or other necessaries of life in the locality, that nobody was permitted to work for them and that she was watched incessantly in order that people might be prevented from speaking to her. And this is no isolated case, nor does it exhaust—if we are to believe the testimony of many witnesses—the list of the means employed by the League to enforce their decrees, which includes whipping of men and women, maiming and poisoning of cattle, and outrages of almost every conceivable description.

The object of the Government is to break up this irresponsible tyranny, which issues its decrees in secret and enforces them without mercy to man, woman, child or dumb animal, and to secure the restoration of law and order, with protection to life and property. It is too early to predict the result, but the indications are favorable, the carmen of Kilkee having defied the League's orders not to drive the police to and from the evictions at Moveen.

EDITORIAL BREVITIES.

The Hamilton *Spectator* says: "The people of Canada cannot afford to try dangerous experiments just now. The country is doing very well. All it needs is a little careful letting alone. The dog who dropped his joint of meat into the stream and grasped at its shadow, lost his dinner. Let Canadians not grasp at shadows."

A few days ago the Hon. W. W. Lynch, who was a member of the Ross-Taillon Government in Quebec and represents the county of Brome in the Local Legislature, was honored with a grand demonstration by his constituents, who presented him on the occasion with a large sum of money. In his speech Mr. Lynch said: "But I scarcely believe, although I do not pretend to discuss the question to-day, that the much heard of commercial union will prove the panacea which some people place to its credit."

One thing we may be sure of: Any agreement come to between the English and Americans will stand, irrespective of what the Canadian people think of it. It is more than probable that they would be willing to agree to commercial union. It the Commissioners say "You can have C. U. as an equivalent for admitting the American fishermen. Take it or leave it as you choose. It is the best we can do," what are you going to do about it?—*Toronto News.*

The commercial unionists are full of preposterous suppositions. Why don't they make an effort to prove that their project is practicable?

The following extract, says the Newcastle, N. B., *Advocate*, reads like one of those happy effusions of the St. John *Globe* when it is dealing with the condition of the agricultural district of New Brunswick. But it is not. It is from the Boston *Journal*, and is written about New Hampshire, one of those countries that has had a better quality of commercial union than the article some people are crazy enough to crave for New Brunswick:

How many of those deserted farms dot the soil of New Hampshire! Again and again one comes upon the pathetic picture —the most pathetic object, save a dead face—of a dead homestead. Life and light gone away, broken windows and ruined doors, cold hearthstones and empty chambers; how joyless it all looks, and how far away the memories of its past cheerfulness. It is amazing how prosperous towns have dwindled to villages, the thriving villages to scattered hamlets within the last fifty years.

Some of our contemporaries are raking up Mr. Erastus Wiman's record in connection with the Montreal Telegraph Company, and it does not appear to be a very creditable one. The Montreal *Herald*, which is now supporting Mr. Wiman's commercial annexation idea, spoke of him in January last as cheeky, hypocritical, tricky, untruthful, a wrecker, a plotter, a conspirator, and a tool of Jay Gould. The contradictory statements on the commercial annexation question, which Mr. Wiman has recently made in Canada and the United States warrant much that has been said as to his unscrupulousness.

The British Minister at Washington does not expect much from the coming negotiations with respect to the fishery question at Washington. The U. S. Senate is likely to condemn anything that the administrators's agents may agree to, because the majority in that body are "agin the Government."

A society for the prevention of cruelty to animals would find plenty of work to do in connection with the scoring of horses at trotting races, in which the animals are very frequently abused to a degree almost intolerable to people of a humane disposition.

The Kingston *Whig*, after professing to be ignorant of that which is known to every newspaper reader, objected to being called ignorant. Well, what does it call this, which appeared in its columns on the 22nd inst.:

By the death of Mr. Brazzard, M. P. for Shefford, which event took place at Waterloo, Que., yesterday, another vacancy is caused in the Dominion Parliament.

The late Thomas Brassard was a member of the Quebec Legislature, consequently the *Whig's* statement that his death would cause a vacancy in the Dominion Parliament was made in ignorance of the facts of the matter.

QUINTE DISTRICT FAIR

A Great Rush on Wednesday Afternoon.

THE TROTTER GALLANT WINS AND DIES ON THE TRACK.

On Wednesday afternoon the Exhibition Park was thronged with people. The crowd numbered between three and four thousand persons, 1700 of these were children, 200 of whom were from the D. & D. Institute, under charge of the professors. The competition to get the largest collection of advertising cards was keen enough. The principal amusement of the afternoon was the finishing of the gentlemen's roadsters race. Three heats were trotted on Tuesday, in which F. Fanning's Gallant won. But the third heat was declared void because one of the slow coaches failed to score with the others.

The horses which started on Wednesday were Bay Billy, Easy Billy, Minnie, Frank O. P., Gallant and Prince Boy.

They scored at the close of the heat, Prince Boy 1st, Frank O. P. 2nd, Gallant 3rd, Bay Billy 4th, Easy Billy 5th, Minnie 6th. Gallant scored 2nd but the judges set him back for foul driving. Minnie was withdrawn.

The next heat Frank O. P. was 1st, Prince Boy 2nd, Gallant 3rd, Bay Billy 4th, Easy Billy 5th. The first three horses kept close together. Frank O. P. was in fine humor.

In the third heat for the day, but the 5th heat in the race, the horses were a long time scoring. Frank O. P. had the pole and the driver seemed green at the business and did not come up with the others. Walter Fanning drove Gallant. His touch on the ribbons seemed to give new life to the horse, for he responded nobly. When at last a start was made, Gallant pushed to the front. In the first lap and three quarters Gallant and Frank O. P. raced neck and neck, when Frank O. P. broke. He no more than caught than he broke again, but the gelding stuck steadily to his business. The excitement was great when turned on the home stretch. The running down by Frank O. P. gave him a temporary lead on Gallant, but when he was brought down to trotting he was not able to increase it. As they neared the judges' stand it was evident there was something wrong with Gallant. As he crossed the scratch a half length behind Frank O. P., he seemed to go to pieces. He took a zig-zag course along the track, came down to a walk, and when about 50 yards from the wire fell dead on the track. As Frank O. P. gained the lead by running, Gallant was given the race. The heat, two-thirds of a mile, was made at a 2:40 rate of speed. Frank O.P. got second place and Prince Boy 3rd.

A temporary check was made in the pleasure of the day by a light shower, which soon passed over. It no more than drove the crowd into the main building than it was over.

Exhibitors Notes.

OAK HALL.

One of the neatest exhibits at the Fair is that of Mr. C. H. Vermilyea of the Oak Hall. As an announcement of the class and quality of goods handled by that well-known institution it could hardly be surpassed. It reveals to the glance of a passer by ready made clothing of all kinds, for men and boys, and a fine assortment of gents' furnishings. An extra good line of overcoats were also shown. Mr. Vermilyea has been in business for the past four years, commencing in gents' furnishing in a modest way. By plenty of push and attention to the requirements of the trade he has come to the front as the leading ready-made clothier of the city. He is young, fair-dealing and expedient, and will no doubt expand to the full limit of the market.

H. C. DICKENS & SON.

One of the oldest and best known firms in the city in that of H. C. Dickens & Son, manufacturers of fine confectionery. They occupied a prominent position at the fair, with an exhibit that attracted much attention and favorable comment. All the goods shown were of their own make, the principal articles being hand made chocolates, hand made cream, &c. The most important and attractive was a huge wedding cake. It was richly and tastefully ornamented. In a small show case was a collection of the newest style of New York ornaments, for such orders. A new line of boiled goods, a commoner line of confectionery was also shown. It was a neat exhibit, and a fair representation of the solid standing of the firm. Ever since confectionery has been an independent business in Belleville the name of the firm has been identified with it. In connection with what has already been mentioned they have a restaurant which is the best known in the county.

C. F. SMITH & CO.

A corner of the north wing of the main building was occupied by a tastefully arranged display of the wares of this well and popular firm. They captured the prize for the best selection of stoves for the second time. Of the stoves shown the Palace Aladdin, a handsome parlor heating stove with oven, the Loyal Canadian and Favorite coal stoves, the Favorite parlor stove, the Brilliant and Dufferin ranges, were the most prominent. Besides these there were other commoner styles of stoves. A number of handsome toilet sets, a beautiful coal vase, a handsome brass fire set, bird cages and carpet sweepers completed the list of their exhibits. Besides handling these lines of goods they are prepared to fit steam and hot water fixtures, having just completed a steam heating apparatus for L. W. Yeomans' new drug store, galvanized iron work and general jobbing is neatly executed. They also do a large business in supplying cheese factories. They are reliable and enterprising and their trade is constantly increasing.

J. COUGHLIN & BRO.

This enterprising and growing firm of marble dealers were successful in carrying off the prize for the best selection of worked marble. They showed a rustic tablet with scroll, an Italian tablet, an American tablet with artistic mould, a dark blue monument of American marble of new design, with neatly traced corners, a small job in granite with traced work and flowers, and a grey granite, Scotch granite. This firm, with their factory at the lower bridge, have been in business for 10 years, and are gradually expanding. They have now a branch in Peterborough. They have succeeded because they turn out only first class work and handle good stock.

GANANOQUE CARRIAGE COMPANY.

The Gananoque Carriage Company, through their local agent, Mr. Jas. Moorman, make a fine display of carriages and cutters. Among the exhibits was noticed a leather top buggy with corning body and broadcloth trimmings, well finished; a jump seat carriage trimmed with leather, a close top phaeton with leather trimmings and gold ornaments, a large Surrey with canopy top, a Portland cutter with crimson plush trimmings, a solid comfort sleigh, the make of which indicated all that the name implied, a favorite road cart and other styles of makes of sleighs and covered carriages. The factory is well known in the Dominion, havig turned out 3000 buggies and carriages, and now have 2,500 cutters ready for the winter trade. All goods are guaranteed. Mr. Moorman is well known in this and surrounding counties. The company could not have secured a more competent pushing representative. His repository is on Front street a few doors north of Hotel street.

BELL ORGAN, HY. BULL, AGENT.

A creditable display of organs and pianos was made by the Bell Organ Company, of Guelph, through their well-known agent, Mr. Henry Bull. This factory turns out from 500 to 600 instruments per month and are pushed to keep pace with their orders. In June the output was 500, with 400 orders in waiting. The instruments are sold in all parts of the globe, the number produced exceeding that of all other factories in this country. Nothing but the best material is used, and it goes in every instrument. They have an enviable reputation, and spare neither pains no expense to maintain it. Mr. Bull, the Belleville agent, exhibited six different patterns. He also had an Evans Bros. piano, of London, which created so much excitement at the Toronto Exhibition; also an upright Heir piano, Toronto make, which took a leading part in the same exhibition. The display was in every way creditable to all concerned. The instruments were of excellent tone and finish, and were at all times surrounded by an interested crowd.

R. J. GRAHAM.

Mr. R. J. Graham exhibits the imported Holstein bull "Louisville" which tips the beam at 2,450 lbs. and has taken the red ticket wherever shown. He also exhibits a pair of grade heifers 2 yrs. old, which are exceptionally fine animals, also a 3 yr. old grade shorthorn, which takes second place in the milking contest, also a 4 yr. old high grade cow which for size and smoothness of model can scarcely be excelled. In the horse department he exhibits a fine 3 yr. old roan mare a model in her class, also a brood mare and foal, in the general purpose class also a fine carriage mare and foal, which has carried off enough red tickets to almost cover her body.

H. CORBY.

One of the best arranged exhibits was that of Mr. H. Corby, distiller and maltster and manufacturer of the celebrated I. X. L. The exhibitor is one of most public-spirited business men of the city. He takes a deep interest in the success of the fair and it was to promote its success that he showed his goods. The broad Dominion is his market, and the benefits derived from an exhibit at a district fair are too small to prove in themselves an incentive. It would be well for Belleville if men of Mr. Corby's capacity and enterprise were more numerous.

A. H. HUBBELL, FOXBORO,

had an elegant exhibit of light single and double harness, lumber harness, cart harness, collars and general stable furnishings. The single and double sets, of oak-tanned leather, and a lady's saddle were of admirable workmanship, silver mounted and highly attractive. The saddle was of extra finish and as good as can be found in the market. The exhibit got four first prizes and a diploma The workmanship was neat and of the best quality for durability. Mr. Hubbell is building up a fine trade and is worthy of success.

J. & E. BARRETT.

The Messrs. Barrett, with characteristic enterprise, had as fine an exhibit as there was to be found at the fair. They show eight of the celebrated Raymond sewing machines, the only kind they handle, organs and an elegant display of fancy work. One of the machines is a cabinet of magnificent workmanship, inlaid with mother of pearl. The fancy work exhibited by them was made on the ground by the Raymond which is provided with fancy work fixtures. Miss Low was the operator. It was wonderful how neatly and quickly the work was done. It consisted of mantle drapes, table scarfs, bannerets, brackets, &c. It was the best exhibition of fancy work in the building. Miss Low says anyone who can operate the Raymond can do equally good work. The saving of time is a great item. Mr. Thos. New, general agent from the Raymond factory, was in with the exhibit. He says it was as good as that shown at Toronto. Besides the machines they showed a pipe top organ, a chapel organ and two parlor organs of the well known Thomas manufacture of Woodstock, they are of excellent finish and tone. The Messrs. Barrett are of good standing and yearly turn over a large number of machines and instruments.

ASHLEY CARRIAGE COMPANY.

The exhibit under the tent of the products of the Ashley Carriage Company's works is a credit to the factory and a very interesting feature of the fair. The factory is one of the prominent industries of the city. Mr. James St. Charles, the present manager of the business, is the oldest and best known manufacturer in this line in the province. The company has been in existence for a number of years, but has only been under its present management for the past few months. It is strong, financially, having on its board of directors some of the most substantial business men of the city. Their exhibit far surpassed anything ever shown in Belleville, consisting of a canopy top phaeton, which was sold to Arthur Coe, Esq., of Madoc, an extension canopy top, double phaeton, sold to D. R. Leavens, Esq., a special side gear buggy, three end spring buggies, a side bar one man top buggy, a side bar one man open buggy, a Harris gear top buggy, a Bradly wagon, two seats, a two wheeled sulky, a platform democrat, a tubular axle waggon, a jump-seated cutter finished, a Belleville Queen cutter with Biggs' patent spring back, and a half dozen samples of cutter woodwork ready for the painter, also a number of carriage wheels and a pair of steel bob-sleighs. From this list it will be seen that the company manufacture all the popular vehicles in use in the Province. The finish of each rig is superb, but is no better than what is given to all the work they turn out. 20 pieces were exhibited at the Toronto Exhibition, together with a finely finished omnibus. The entire lot was sold on the ground, and an order for a Belleville Queen cutter was given by a Buffalo gentleman. Mr. St. Charles had charge of the exhibit, and is now in Ottawa with a fine display at the Provincial fair. The factory is located on Pinnacle Street. None but skilled workmen are employed. Great care is exercised, in purchasing stock, to select the best and most durable material. The company, from its energy and capital, is destined to occupy an extensive market. The most modern machinery is to be found in their establishment, consequently every piece is an exact counterpart of the other. The advantage of this, besides greatly reducing the cost of production, will be found in making repairs. The factory will always have the needed piece in stock, and it can be fitted in place at very small cost or trouble. The exhibit at the Toronto fair demonstrated that the work turned out by them is second to none in the Province, and time will show that it is equal to any in wear.

A. R. CHOWN.

The largest exhibit of stoves was made by A. R. Chown. He showed the well-established Radiant Home, with the popular duplex grate, a stove that he has handled for six years. The Happy Thought range, with duplex grate, manufactured by Wm. Buck, of Brantford, who owns and controls the patent in Canada, attracted considerable attention. The Royal Peninsular, the best working stove in the market, the Radiant Peninsular and a variety of other stoves completed his extensive exhibit. The high class of art that is employed in decorating parlor heating stoves is one of the features of the modern makes. Mr. Chown's leading makes, besides having a regard to economy in fuel and heating capacity, are pleasing to the eye. Besides stoves, he handles shelf hardware, puts in hot water and steam heating appliances, does first class plumbing and all kinds of general job work at short notice.

S. A. MOORE.

The upper bridge marble factory, the oldest establishment of the kind in the district, had a small exhibit, but what it lacked in number of pieces was made up in excellence of workmanship. A rustic monument with scroll was particularly admired. Mr. Moore is doing a rushing business.

J. HODGE.

The leading pump factory of the district, that of J. Hodge had five of his neat and improved pumps on the ground and by means of a vat of water was able to exhibit their working power as well as neatness of finish. A hand force pump, deep well and cistern pumps are his line of manufacture. From seven years experience in the business he has satisfied himself and the public that he has the pump for the market. It is crowding others out, as it is easy to work and does not get out of order. Four hundred were sold last year, and the demand is steadily increasing.

J. C. HANLEY.

The Warden of the County, J. C. Hanley, Esq., a careful public man and a progressive citizen, has a stock farm second to none in the county. He exhibited a herd of nine Durhams and won the red ticket. A two year old bull captured first prize, a grade cow 1st, a three year old cow 2d, a two year old heifer 1st, a yearling heifer 1st and a bull calf 2d. This is an exceedingly creditable record. He led in Shropshire sheep, showed an excellent Percheron stallion and a pen of Berkshire sheep. He has young thoroughbred stock for sale and is convinced from experience that good stock is the most profitable.

EXHIBIT OF THE G. & J. BROWN MANF'G CO. (LIMITED) SUCCESSORS TO G. & J. BROWN.

This firm purchased the stock and leased for a term of years the premises known as Brown's Foundry, from the firm of G. & J. Brown. The firm is composed of old employes of G. & J. Brown, as follows: W. W. Lee, Wm. Tennent, Wm. Hopkins, Alex. Fullerton, Thos. Rowlands, and Jas. Edgar. They have a very fine exhibit of a few of the articles they manufacture, as follows: In the building they make a very nice display of garden chairs and seats painted in green and maroon and gold; iron feed-boxes, hay racks, samples of cresting neatly painted and finished, 2 cook stoves, 1 box stove, 1 railway switch-stand complete with signal lamp, 1 track drill, and 1 rail bender.

Outside on the grounds they displayed one portable threshing engine, which will work easily up to 16 horse power. On this engine they have steam up and are running the same. 1 single reaper, 1 Belleville mower, 1 grain grinding mill, 1 fanning mill, 1 circular wood saw, 3 steel plows, 2 steel frame gang plows, 1 land roller, 1 corn sheller, 1 single drum hoist, 1 railway hand car and 1 railway push car or lorrie.

All these manufactures are of first class material and good workmanship and they spare no pains or expense in getting up their machines so as to give satisfaction to their patrons.

They report business as having been very good this season and that they have been kept busy the whole season.

They have gone into the manufacture of railway supplies, and lately they shipped hand-cars &c. to the Red River Valley railway; at present they are busy getting out some cars for the Brockville, Westport & Sault Ste. Marie Railway. They have just put a new steel boiler into their works of large capacity, to enable them to do more work and extend their business.

HAINES & LOCKETT.

This well known firm of boot and shoe dealers were the only exhibitors in that class. They had a larger display than the year before. Mr. Lockett had charge and stated that they have received direct returns from their last year's exhibit and that merchants made a mistake in not showing their goods. He thinks it the best possible advertising medium. Mr. Lockett arranged the exhibit and certainly showed good taste. The firm gives prominence to gents' ready made fine boots. One of the latest lines added to their stock is the common sense button boot of English porpoise. Another boot that they give prominence to is the Puritan calf, guaranteed absolutely waterproof. It is soft and easy on the foot and gives good service. Another waterproof shoe is of English make and has stood in water for five weeks without being affected in the least. A fine line of Christmas slippers are shown as well as the Goodyear Glove rubbers, which the firm find to be the best thing in the line that they have handled. A sole leather trunk valued at $40, and others of more moderate expense, hand satchels, a fine assortment of ladies' shoes, gilt edge, raven glass and French lustre shoe polishes, complete a large and attractive display, yet it hardly gives an idea of the immense stock and varied class carried by this reliable house. Besides leading the shoe business in Belleville they occupy the same enviable position in the trade at Kingston and Trenton with their branch stores.

GEORGE RITCHIE & CO.

The north end of the upper floor of the main building was occupied by their rich and elegant display of curtains, carpets, rugs, window blinds and house furnishings. The richness of the curtains attracted and held the attention of the ladies particularly. They showed silk Turcoman and silk plush curtains, Nottingham lace curtains and linen art lace curtains, all of the richest stock. Brussels carpets, rugs, crumb cloths, all wool and union carpets were shown in profusion. The display was magnificent, arranged with exquisite taste, and elicited the warmest praise. The firm import their best goods direct from European markets. Mr. Thos. Ritchie makes semi annual trips to the old world markets and is thus enabled to keep his warehouse well stocked with the latest productions from the factories of England and France.

J. M. WALKER & CO.

The old reliable firm of J. M. Walker & Co. exhibited a good number of their staple agricultural implements, giving particular prominence to their front cut mower and sulky gang plough. They also showed one steel walking plough, one hand or power cider mill, one field cultivator, a steel harrow, a hand or power straw cutter, a garden or one horse plough of wrought iron, a new side hill plough and a number of other implements. The firm is composed of experienced men, who have made the improvement of agricultural implements their study. The farming community is aware of their concentrated efforts in this direction, and they enjoy a wide patronage and their fair dealing has won for them the utmost confidence of their patrons. Their mower is a model of simplicity. The machine is thrown in and out of gear by an eccentric which does away with spring and clutches in the driving gear. Nothing better can be said of their popularity than that 25 mowers were made for the past season, 24 of which were sold and gave the best satisfaction. Their South Bend steel frame sulky plough, to the frame of which a 10, 12 or 14 inch plough or a Walker gang plough can be attached at the option of the operator, is a prime favorite with ground cultivators. One of the great features of this implement is the horse lift, by which the plough can be lifted by the driver when afoot as easily as when in the seat. The patent attachment for fixing the Walker gang plough to the Sulky frame, is the simplest possible contrivance. The shifting of a single bolt does the work; it is easier than adjusting a coulter. Twenty of these ploughs have been sold this season and the demand was far from supplied. Fully 50 more could have been disposed of, but the firm were unable to secure the steel beams and had to stop the manufacture. They are the most popular plow of the district. A few of the farmers in Thurlow who use them are: Albert Jones, Wm. Ketcheson, Mr. Desislets, Francis Brenton, Ranslor Haggerman, Asa Palmer and Wm. Bedell. In Tyendinaga, Geo. Munro, Mr. Morden, near Shannonville. In Sidney, Chas. Vanderwater, Anson Jones, Dr. Coleman, and Jas. Foster, Huntingdon, and others. They all express the highest satisfaction with the plough. Mr. H. F. Rankins had charge of the exhibit. His general ability and thorough knowledge of the machines make him a fit and capable superintendent.

N. S. MORDEN & CO.

The new drug firm, which is to blossom soon in a neat stand, which is being fitted up for them nearly opposite the Dominion bank, had a neat display of fancy goods in the main building. When they open out they will be found to carry a new and complete stock of English confectionery, patent medicines, flavoring extracts, toilet soaps, combs and brushes, perfumery, paints and oils, and a full line of artists' materials. N. S. Morden has been with A. L. Geen for the past three years, while D. Taylor has for the past year had charge of a branch store in London, Ont. Perscriptions and family receipts carefully compounded.

T. DONNELLY.

The finest show of musical instruments ever made at the fair is that of Mr. Thos. Donnelly, of this city. He has four Landsdowne pianos, which cannot be excelled by any other manufacturer. The tone of the instruments is sweet and melodious, while the even scale is remarkable. These pianos have taken the highest award wherever exhibited. Prince Bismarck has a Landsdowne piano and in a letter states that he is proud to be in possession of such a masterpiece of art. Mr. T. Donnelly is the local agent. He has always a select stock of instruments on hand which any dealer might feel proud of. One square Grand piano, richly ornamented, possessed a tone which a musician cannot but admire. Of the three cabinet Grands—one is called the Fancy and is well worth seeing. It is of the finest design and finish, has an improved music desk an ingenious piece of machinism yet so simple in construction as to be the wonder of every beholder. Mr. Donnelly also shows a fine stock of celebrated Karn organs—five in number. These instruments are as well known to the public as the pianos. They have the finest tone of any organ made. The patent mouse protector is without doubt a great improvement in the organ. At the Colonial exhibition 3522 of these organs were sold they being preferred to all other Canadian makes. This speaks for itself.

THURSDAY MORNING.

The attendance this morning was good and the exhibition was favorably commented upon. The pottery display of Harte Bros. & Lazier, particularly the potter at work manufacturing, and the exhibit by Mrs. H. A. Thompson of Fleischmann's compressed yeast, were the centres of attraction. The sky was overcast, but the weather was by no means unfavorable. About noon the crowd began to assemble and the indications were that to day's attendance would be the largest of the week.

It is farmers' day and the attractions are races for pair of horses solely engaged in farmers or sons of ... Cooper a ... and the association a 2nd valued at ... Ritchie offered a 1st prize valued at [illegible]

Cholera on a Steamship

The steamship Alesia, from Italy, has arrived at the lower quarantine station, New York, with four cases of Asiatic cholera on board. Eight persons died during the voyage. The sick passengers have been placed in the hospital at Swinburne Island and the others will be transferred to Hoffman Island, where they will be in quarantine. The vessel will remain in the lower bay until she has been thoroughly cleansed and disinfected.

A Victory for The Army.

QUEBEC, September 23.—Recorder Dery this morning fined Napoleon Wagner $40 for having participated in the recent assault upon the Salvation Army. With regard to the constitutionality of the Army, His Honor declared in substance, that any association whose object was good could not be called illegal, and the Army was undoubtedly in these circumstances.

A Bloodthirsty Monster.

LOUISA, Ky., Sept. 21.—Wm. Thompson yesterday concealed himself near the house of A. J. Thompson and shot three members of the family, one fatally. The murderer also shot a school teacher. His victims were his own cousins. He escaped.

Charlevoix Election.

ST. PAUL'S BAY, Quebec, Sept. 21.—The nomination for the County of Charlevoix for the House of Commons took place to-day. The only candidates are Mr. Cimon, ministerialist, (son of the late member) and Mr. Tremblay, independent Conservative.

Constable Whelan's Murder.

DUBLIN, September 21.—The enquiry into the murder of Constable Whelan, who was killed by moonlighters, has begun. Farmer Curtis, at whose house the murder was committed, has described the attack at his house and has identified the prisoners.

The Manitoba Injunction.

The Dominion injunction case was postponed to-day until October 7th, an understanding being had not to build across lots meantime.

—Fifty miles of the North-West Central railway will be built this year.

—The Leaguers attacked the rooms of the Protestant Young Men's Association at Cork on Thursday night. The police beat them off.

—Capt. Tom Brown, of the Queen's own rifles, died at Toronto on Wednesday night. He was a very popular officer of the regiment and took an active part in the Cut Knife creek affair.

AYER'S Sugar-Coated Cathartic PILLS.

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them with good effect, in cases of Rheumatism, Kidney Trouble, and Dyspepsia. —G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured. —Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored. —Theodore Esling, Richmond, Va.
